## COOK ON THE STAND.

He Gives Testimony in the Schley  
Court of Inquiry.

### IS FOR BOTH SIDES.

He Appeared Against Schley, but His  
Testimony Was in His Favor.  
Only Few More Government  
Witnesses to Testify.

Washington, Oct. 14.—Captain Francis A. Cook, was the first new witness called before the Schley court of inquiry this morning, he being called by the navy department, but as he was also on Admiral Schley's list of witnesses, he was considered like Lieutenant Commander Hodgson and Lieut. Doyle, as a witness for both sides of the controversy. During the war with Spain Captain Cook was commander of the flagship Brooklyn and also Admiral Schley's chief of staff, thus occupying the same relative position to Admiral Schley that Captain Chadwick occupied to Admiral Sampson. His appearance on the stand created considerable interest and his testimony was listened to attentively.

Other witnesses summoned by the department for the day were Lieutenant Commander W. F. Fullam, who was on the New Orleans during the Santiago campaign, and Lieutenant Joseph Beale, who was on the scout ship Harvard and who volunteered to go ashore and ascertain whether the Spanish fleet under Cervera was in the harbor of Santiago. These are the last witnesses that Judge Advocate Lemly expects to call and when they shall have completed their testimony he will "rest."

A number of Admiral Schley's witnesses were in attendance about the court room. It is expected his first witness will be the Cuban pilot, Edward Nunez, and he will be followed by Commander Mason, who was executive officer on the Brooklyn during the Santiago campaign. Then Lieutenant Commander Griffin and Lieutenants McCauley and Webster will follow. All of these were present in the room before the beginning of the day's proceedings. After previous witnesses had completed their testimony Captain Cook took the stand. He was questioned by Mr. Hanna and responded in a distinct and clear tone. He said he had been at Key West May 19.

"What information did you have at that time concerning the whereabouts of Cervera's fleet."

"My impressions now are simply from a rumor that they had left the Canary islands and part of them had been sighted at Martinique, and from consular information, or perhaps information sent by the Harvard, that they had gone to Curacao. That is all from impression."

In giving his reasons for the departure of the flying squadron from Cienfuegos, Captain Cook said the squadron had been sent to that port "to intercept and meet the Spanish squadron, it having been determined, as we believed at that time, by them to make Cienfuegos their objective point."

He said he understood the Spanish fleet carried munitions of war for Havana and it was believed they would go to Cienfuegos because of its accessibility to Havana.

Captain Cook detailed the conversation between Commodore Schley and Captain Chester while the squadron was en route to Cienfuegos. He said there had been talk between them about coaling on the southern coast of Cuba. Witness' recollection was that the prospect did not seem favorable.

Captain Cook said that upon arriving off Cienfuegos on the morning of May 22 a blockade was immediately established, as the firing of guns were heard and it was believed Cervera had arrived and a fête in honor of his appearance was on. Earthworks on shore were also seen, but they were not fired upon because it was considered desirable not to unnecessarily expend ammunition.

"I think that between that time and the arrival of the Adula, it was presumed the whole beach was occupied," he said. "We saw cavalry and others on the beach. The possibility of boats landing was talked of. The idea was that we would have to go in pretty well to the westward and at night. I may have had some conversation with the commodore about it, but I do not recollect. On the arrival of the Adula, we fully expected to get all the information."

Did you see any signal lights on shore while you were there?"

"Yes, the first thing after we arrived on May 23."

Captain Cook described the lights and said their appearance confirmed Schley in the belief that the Spanish fleet was in the harbor. It was only after the arrival of McCalla on the Marblehead they found out the signals were made by the Cuban insurgents. He said the first information that the Spanish fleet was not in Cienfuegos was given by the

Eagle upon her arrival.

"What was the conduct and bearing of Commodore Schley under fire on such occasions as you had opportunity of observing?" asked Mr. Hanna.

"I always regarded him as an enthusiastically brave and patriotic officer. Never in any other way," replied the witness. Captain Cook also testified that he (Cook) gave the order for the Brooklyn's loop at the battle off Santiago and that he considered every movement eminently successful.

Heretofore ships had to wait a certain length of time before unloading.

### HAPPY MEETING.

Brothers and Sisters Brought Together After Forty Years Separation.

Chicago, Oct. 14.—Separated for 40 years, ignorant of each other's whereabouts and not even knowing if brothers or sisters were still alive, six members of the family of Joseph Cromack, once a resident of Cleveland, met in Austin Sunday. The reunion was unique in that the brothers and sisters were hardly able to recognize each other.

The meeting took place at the home of Mrs. William S. Ryder, and those participating in it were: Mrs. Ryder, William Cromack of Oil City, Mrs. Maria McGonegal of Ronsville, Pa.; Joseph Chamberlain of Santa Barbara, Cal.; Mrs. Elizabeth Chamberlain of Akron, O., and Mrs. Emma Dougall of Palmyra, Neb.

The meeting was brought about by a comparative stranger who once boarded at the Ryder House in Austin. He traveled in the east several years ago and heard the family name of his friends. This was in Pennsylvania and it took three years of correspondence to locate the widely separated relatives.

### Banker Commits Suicide.

Lincoln, Neb., Oct. 14.—Oliver C. Sands, 50 years old, committed suicide at his home at University Place on Saturday night by hanging himself. Following an inquest it was learned that Mr. Sands had left a letter intimating that he had recently lost a fortune by being induced to make investments in what the letter declares proved to be swindles. For years Mr. Sands engaged in the banking business in Missouri and Nebraska, being until recently cashier of the bank at University Place.

If all is fair in love and war, Kitchner has no kick coming even if his lady love has jilted him and the Boers escaped him.

A Post headline says, "The Missionaries are Trying to Get in Touch With the Bulgarian brigands." It may be said with equal truth that the brigands are trying mighty hard to touch the missionaries for Miss Stone's ransom.

Please explain why it is that farmers attach so much importance to the breeds they handle of horses, cattle, hogs, sheep and poultry, and so little to the breeds of crops they grow? Improvement in plants is controlled by the same laws, and these laws are as easily observed in one case as the other, and both are similarly profitable.—Farm and Ranch.

"We are not much of a sport," says a Kansas editor, "but when we meet a cinch in the road we know it. We had made the following bargain with a friend yesterday. We were to stand at a given point half an hour and watch the ladies who passed. For every lady who reached her hand back to see if her skirt was gaping or to tuck it under her belt, we were to receive a nickel. For every one who failed to do so in walking a block we were to give him a dime. We got sixty-two nickles from him and gave him one dime—a lady with both arms off came along."

Filipino Leader Gone to Bulacan to Incite the Natives There.

Manila, Oct. 14.—The military authorities have received word that General Miguel Malvar, the insurgent leader, is believed to have left the province of Batangas, Luzon, and to be planning an operation in the province of Bulacan, where insurgent conscription has been progressing recently. The country there is mountainous and well adapted to guerrilla warfare.

It was taxed to its utmost capacity when the break occurred.

Tampa Labor Situation Serious.

#### The Right Arm and Left Foot.

The right arm is always a little larger than the left, but the left foot is almost always larger than the right, presumably because while nearly every man uses his right arm to lift a weight or strike a blow he almost invariably kicks with his left foot, while the lounge stands on his left leg and lets his right fall easily, because he has learned by experience that this is the best attitude he can assume to prevent lassitude and fatigue.

This constant bearing of the weight on the left foot makes it wider than the right, and it often happens that a man who tries on a shoe on the right foot and gets a close fit has to discard the shoes altogether because he cannot endure the pain caused by the tightness of the left. If when riding on the street car you will take the trouble to notice, you will see that in laced shoes the gap is much smaller on the right foot than on the left, while with button shoes the buttons have to be set back ten times on the left shoe to once on the right.

#### A Tussle With English.

The pitfalls of the English tongue to a foreigner are many. A Frenchwoman who has undertaken housekeeping in New York thought she had a good working knowledge of the language, but soon discovered her mistake.

One day she called a carpenter and planned with him to have some work done about the house in the way of putting up shelves, etc., and she went over the ground with him as carefully as possible to get from him an estimate of what it would cost.

After the work was done the bill submitted was considerably in excess of the sum first named. The Frenchwoman endeavored to remonstrate, but only succeeded in making the following remarkable statement to him:

"You are more dear to me than when we were first engaged."—New York Sun.

#### Almonds.

The world's almond crop, exclusive of those raised in California and the west, comes from Italy, Sicily, Majorca, Spain, France, Portugal, Morocco and Algiers. The highly prized Jordan almonds come from Malaga, Spain, and not from the Jordan river, as many people suppose. The common almond is the most indigestible of all the nuts and contains very little nourishment. There are many ways, however, in which it is advantageously used as a desert or as a flavoring. One peculiarity about the almond tree is that its leaves contain prussic acid and are therefore poisonous, while the fruit may be eaten with impunity.

#### A Sure Thing Sport.

A well known politician on setting out for a day's sport with a friend pointed to a large spaniel which lay apparently asleep in the hall and bet his friend a guinea he could not attract the dog's attention.

The bet was readily accepted, and after the failure of a shrill whistle and a blank cartridge to cause the slightest movement the guinea was delivered up.

"That's my old dog Mahatma I had stuffed a few weeks ago," laughed the politician, "and that's the tenth guinea he's brought me."—London Tit-Bits.

#### Italian Bees.

Italian bees are more hardy than the native and more profitable. They are more energetic and will gather honey in partial droughts when natives will do nothing. They will gather honey from blossoms that natives will not touch. They are stronger on the wing, will fly more directly and swiftly and are not so irritable.

## BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac.

## WANTS TO SURRENDER

Pat Crowe Is Seeking Terms from  
Omaha's Chief of Police.

## FAIR TRIAL ASKED.

Chief Donahue Says the Letter Is Genuine and His Terms Will Be Accepted—Letter from Crowe's Uncle on Same Subject.

Omaha, Oct. 14.—Chief of Police John J. Donahue, has received a letter from Pat Crowe, naming the terms on which he will surrender. The letter came in care of an Omaha newspaper and covers 15 pages of closely written manuscript. The post-mark is illegible, but the letter was mailed at 8 o'clock in the morning and reached this city at 8 in the evening of the same day, indicating that it had not traveled a long distance.

In the letter Crowe agrees to give himself up at once and stand trial for the kidnapping of Eddie Cudahy, provided he is not locked up until a jury shall adjudge him guilty. He says he is unable to furnish bond in excess of \$500 and demands that bail be fixed in that sum.

Chief Donahue, when asked his opinion of the genuineness of the letter, expressed himself as quite satisfied that it came from Crowe. Donahue has known Crowe for several years, is acquainted with his manner, handwriting and

PAT CROWE.

style of speech. The chief also received a letter from Crowe's uncle at Manchester, Ia., submitting similar terms for Crowe's surrender, which lead the police to believe they are dealing with the right man.

Chief Donahue says he will request the city and Mr. Cudahy to withdraw the rewards which have been offered for Crowe's arrest and conviction with the provision that Crowe surrender himself. He said that if Crowe gave himself up he would be given all the advantage the law provided and would be afforded time and ever facility for securing such witnesses as his attorneys deemed necessary.

He said that the fight that the attorneys of James Callahan, now held in connection with the kidnapping, were making for him did not anticipate the return of Crowe and that Callahan knew no more of Crowe's whereabouts than anybody else.

### Was Franklin's Granddaughter.

Philadelphia, Oct. 14.—Mrs. Ed Gillespie, the great granddaughter of Benjamin Franklin, and one of the city's most prominent women, died at her home here Sunday, aged 80 years. Her father, William John Duane, was secretary of the treasury in President Jackson's cabinet and was summarily relieved by the president for refusal to comply with his order to remove the public funds from the bank of the United States.

### California Town Burned.

San Jose, Cal., Oct. 14.—The entire business section of Los Gatos was wiped out by fire Sunday. Property worth from \$100,000 to \$150,000 was destroyed. A dozen or more business blocks containing several manufacturing, a livery stable and a church and many dwellings were burned. The fire department was powerless to cope with the flames which were fanned by a strong breeze. A number of men were injured, but none seriously.

### Mormon President Buried.

Salt Lake City, Utah, Oct. 14.—The Church of Jesus Christ or Latter Day Saints, commonly known as the Mormon church, paid its last tribute Sunday to the remains of its late president, Lorenzo Snow. The great popularity and clerical eminence of the deceased drew to the city Mormons from every corner of the state as well as many gentiles. The remains were buried at Brigham City.

### Wheat Crop of the World.

Washington, Oct. 14.—The department of agriculture announces that estimates of the world's wheat crop of 1901 so far made agree that the crop is larger than that of either of the two preceding years. The principal increase is credited to the United States, Canada and India, though various other countries are credited with larger crops than they had in 1900.

### Forest Fires in California.

Salina, Oct. 14.—A forest fire is raging near Pacific Grove and Monterey. The damage already done is estimated as \$100,000. Many thousands of acres of brush and timber have been burned over. Pacific Grove is in danger of destruction.

## WHERE IS BOTHA?

Some of the London Papers Believe Him Hemmed, Others He Escaped.

New York, Oct. 14.—In explanation of the statements of some of the London dailies concerning the war in South Africa the London correspondent of The Tribune cables as follows:

The Standard thinks that the British troops have a good chance of capturing General Botha. Very little is known here in regard to the movements of the Boer commandant-general since the failure of his attempt on the Natal frontier. His wagons with an escort under Grobelaar have been detached and sent east. Botha with main body marched in the same direction for some time only to find that his retreat was being cut off by one of the British columns which was apparently moving parallel with him. He then moved due north to within a few miles of Piet Retief, where he is believed to have halted in a difficult and perilous position. He cannot break back toward Zululand or the Natal frontier without throwing himself right into the arms of his pursuers. If he goes north he will touch Swaziland and will get into trouble with the warlike natives. He may possibly drift away toward the west and find a temporary refuge in the passes of the Fladsberg. On the whole, The Standard considers that the Transvaal army is in a tight corner. The Daily News on the other hand takes the view that General Botha has got clear away.

### RHODES MAY DIVULGE.

If Made to Show His Hand He Will Will Make Others Ashamed.

New York, Oct. 14.—The business associates of Cecil Rhodes make no secret of their belief in his correspondence with Schnadhorst in regard to that famous check for \$5000 forms by no means the best card which the Cape premier has to play against his Liberal opponents, says The Tribune's London correspondent. They assert this sensation is as nothing compared with what will follow if Rhodes is forced to reply to the charges which are being made against him. It is hinted he is in position to disclose the financial relations between certain officials of Liberal organizations and Kruger. The Liberals, for their part believe that Rhodes endeavored to bribe Schnadhorst by offering to make him a present of a number of the shares in the Chartered Company of South Africa.

### Melted into Small Groups.

New York, Oct. 14.—Heavy rains have temporarily interfered with communication between the columns in the field, says a Dundee, Natal, dispatch to The Times. As was feared the Boer forces in trying to make good their escape have melted into small groups. Commandant General Botha and the main body of burghers, accompanied by three commandants, have reached Pongola forest, near Luneburg, Transvaal.

### Offered Manufactured Information.

New York, Oct. 14.—Mr. Markham, member of parliament, who came into such prominence of late, in a recent speech at Kimberley, made many statements of general interest, according to a London correspondent of The Tribune. He said General Buller's international detective had paid him a visit and offered to give him valuable information about the Transvaal's secret service. The detective added that if Markham wanted any information manufactured he can manufacture it as well as anybody, but the offer was rejected.

### Negotiations Fallen Through.

New York, Oct. 14.—A Constantinople correspondent of The World cables the following points of interest concerning the attempt to rescue Miss Stone: The first negotiations with the brigands who kidnapped Miss Stone, the American missionary, and are now holding her for \$110,000 ransom, have fallen through, owing to the attempt by the Bulgarian police to trap the outlaws. It is believed, however, that Miss Stone and her companion, Mrs. Taika, are being well treated.

### Miss Stone's Mother Ill.

New York, Oct. 14.—Word comes from Boston in a special to The World that Mrs. Stone, mother of Miss Helen M. Stone, is sinking under the strain of the anxiety concerning her daughter. Mrs. Stone is more than 80 years of age and has been in feeble health for years. Her condition now is such that her friends fear that she will die of the suspense. Every effort has been made to keep the details of the situation from her in order to save her from the shock of alternate hope and despondency as varying news and reports are spread about regarding Miss Stone's fate.

### A Solid Nugget.

New York, Oct. 14.—A solid nugget which weighs four pounds was brought over on the steamer La Bretagne which has just arrived here. It is in charge of P. A. Oster, who will represent the Society of Mines at the Victoria, B. C. Mineral exposition. The nugget was on exhibition at the Paris exposition. It is called "Jumbo" and was found at Boulders Creek, B. C., near Olive lake.

### Wireless Telegraphy Advancing.

London, Oct. 14.—A new advance in wireless telegraphy is recorded here. The Daily Telegraph says that Marconi has succeeded in transmitting messages through the air for nearly 350 miles, which is far greater than the maximum distance hitherto reported.

### King of Belgium Coming.

Antwerp, Oct. 14.—King Leopold has decided to visit the United States. He expects among other advantages to get in the United States many suggestions from shipping arrangements which will prove beneficial to ports of Belgium.

## COOK ON THE STAND.

He Gives Testimony in the Schley  
Court of Inquiry.

### IS FOR BOTH SIDES.

He Appeared Against Schley, but His  
Testimony Was in His Favor.  
Only Few More Government  
Witnesses to Testify.

Washington, Oct. 14.—Captain Francis A. Cook, was the first new witness called before the Schley court of inquiry this morning, he being called by the navy department, but as he was also on Admiral Schley's list of witnesses, he was considered like Lieutenant Commander Hodgson and Lieutenant Doyle, as a witness for both sides of the controversy. During the war with Spain Captain Cook was commander of the flagship Brooklyn and also Admiral Schley's chief of staff, thus occupying the same relative position to Admiral Schley that Captain Chadwick occupied to Admiral Sampson. His appearance on the stand created considerable interest and his testimony was listened to attentively.

Other witnesses summoned by the department for the day were Lieutenant Commander W. F. Fullam, who was on the New Orleans during the Santiago campaign, and Lieutenant Joseph Beale, who was on the scout ship Harvard and who volunteered to go ashore and ascertain whether the Spanish fleet under Cervera was in the harbor of Santiago. These are the last witnesses that Judge Advocate Lemly expects to call and when they shall have completed their testimony he will "rest."

A number of Admiral Schley's witnesses were in attendance about the court room. It is expected his first witness will be the Cuban pilot, Edward Nunez, and he will be followed by Commander Mason, who was executive officer on the Brooklyn during the Santiago campaign. Then Lieutenant Commander Griffin and Lieutenants McCauley and Webster will follow. All of these were present in the room before the beginning of the day's proceedings.

After previous witnesses had corrected their testimony Captain Cook took the stand. He was questioned by Mr. Hanna and responded in a distinct and clear tone. He said he had been at Key West May 19.

"What information did you have at that time concerning the whereabouts of Cervera's fleet.

"My impressions now are simply from a rumor that they had left the Canary islands and part of them had been sighted at Martinique, and from consular information, or perhaps information sent by the Harvard, that they had gone to Curacao. That is all from impression."

In giving his reasons for the departure of the flying squadron from Cienfuegos, Captain Cook said the squadron had been sent to that port "to intercept and meet the Spanish squadron, it having been determined, as we believed at that time, by them to make Cienfuegos their objective point."

He said he understood the Spanish fleet carried munitions of war for Havana and it was believed they would go to Cienfuegos because of its accessibility to Havana.

Captain Cook detailed the conversation between Commodore Schley and Captain Chester while the squadron was en route to Cienfuegos. He said there had been talk between them about coaling on the southern coast of Cuba. Witness' recollection was that the prospect did not seem favorable.

Captain Cook said that upon arriving off Cienfuegos on the morning of May 22 a blockade was immediately established, as the firing of guns were heard and it was believed Cervera had arrived and a fête in honor of his appearance was on Earthworks on shore were also seen, but they were not fired upon because it was considered desirable not to unnecessarily expend ammunition.

"I think that between that time and the arrival of the Adula, it was presumed the whole beach was occupied," he said. "We saw cavalry and others on the beach. The possibility of boats landing was talked of. The idea was that we would have to go in pretty well to the westward and at night. I may have had some conversation with the commodore about it, but I do not recollect. On the arrival of the Adula, we fully expected to get all the information."

Did you see any signal lights on shore while you were there?"

"Yes, the first thing after we arrived on May 23."

Captain Cook described the lights and said their appearance confirmed Schley in the belief that the Spanish fleet was in the harbor. It was only after the arrival of McCauley on the Marblehead they found out the signals were made by the Cuban insurgents. He said the first information that the Spanish fleet was not in Cienfuegos was given by the

Eagle upon her arrival.

"What was the conduct and bearing of Commodore Schley under fire on such occasions as you had opportunity of observing?" asked Mr. Hanna.

"I always regarded him as an enthusiastically brave and patriotic officer. Never in any other way," replied the witness. Captain Cook also testified that he (Cook) gave the order for the Brooklyn's loop at the battle off Santiago and that he considered every movement eminently successful.

Heretofore ships had to wait a certain length of time before unloading.

### HAPPY MEETING.

Brothers and Sisters Brought Together After Forty Years Separation.

Chicago, Oct. 14.—Separated for 40 years, ignorant of each other's whereabouts and not even knowing if brothers or sisters were still alive, six members of the family of Joseph Cromack, once a resident of Cleveland, met in Austin Sunday. The reunion was unique in that the brothers and sisters were hardly able to recognize each other.

The meeting took place at the home of Mrs. William S. Ryder, and those participating in it were: Mrs. Ryder, William Cromack of Oil City, Mrs. Maria McGonagall of Ronsville, Pa.; Joseph Chamberlain of Santa Barbara, Cal.; Mrs. Elizabeth Chamberlain of Akron, O., and Mrs. Emma Dougall of Palmyra, Neb.

The meeting was brought about by a comparative stranger who once boarded at the Ryder House in Austin. He traveled in the east several years ago and heard the family name of his friends. This was in Pennsylvania and it took three years of correspondence to locate the widely separated relatives.

A Post headline says, "The Missionaries are Trying to Get in Touch With the Bulgarian brigands." It may be said with equal truth that the brigands are trying mighty hard to touch the missionaries for Miss Stone's ransom.

Please explain why it is that farmers attach so much importance to the breeds they handle of horses, cattle, hogs, sheep and poultry, and so little to the breeds of crops they grow? Improvement in plants is controlled by the same laws, and these laws are as easily observed in one case as the other, and both are similarly profitable.—Farm and Ranch.

"We are not much of a sport," says a Kansas editor, "but when we meet a cinch in the road we know it. We had made the following bargain with a friend yesterday. We were to stand at a given point half an hour and watch the ladies who passed. For every lady who reached her hand back to see if her skirt was gaping or to tuck it under her belt, we were to receive a nickel. For every one who failed to do so in walking a block we were to give him a dime. We got sixty-two nickels from him and gave him one dime—a lady with both arms off came along."

Sergeant John Howard was on the spot two seconds after and arrested Paul and George Wheat, Robert Pleasants and Basset Blake, all of Richmond, and locked them up on the charge of assault to murder. None of them was shot, but Wiley Jones, an old citizen of that town, was shot accidentally in the calf of the leg. He was a bystander, taking no part in the difficulty. While the wound bled freely, it is not dangerous.

He lost about \$5 in money, only \$1.50 of it could be found when the convicts were searched. It was returned. The boy had his clothes badly torn but was not hurt much.

The strikers have issued a letter to the public appealing to their sympathizers to refrain from all acts of violence and content themselves with keeping off the cars.

Philippine Leader Gone to Bulacan to Incite the Natives There.

Manila, Oct. 14.—The military authorities have received word that General Miguel Malvar, the insurgent leader, is believed to have left the province of Batangas, Luzon, and to be planning an operation in the province of Bulacan, where insurgent conscription has been progressing recently. The country there is mountainous and well adapted to guerrilla warfare.

It was taxed to its utmost capacity when the break occurred.

#### The Right Arm and Left Foot.

The right arm is always a little larger than the left, but the left foot is almost always larger than the right, presumably because while nearly every man uses his right arm to lift a weight or strike a blow he almost invariably kicks with his left foot, while the longer stands on his left leg and lets his right fall easily, because he has learned by experience that this is the best attitude he can assume to prevent lassitude and fatigue.

This constant bearing of the weight on the left foot makes it wider than the right, and it often happens that a man who tries on a shoe on the right foot and gets a close fit has to discard the shoes altogether because he cannot endure the pain caused by the tightness of the left. If when riding on the street car you will take the trouble to notice, you will see that in laced shoes the gap is much smaller on the right foot than on the left, while with button shoes the buttons have to be set back ten times on the left shoe to once on the right.

#### A Tussle With English.

The pitfalls of the English tongue to a foreigner are many. A Frenchwoman who has undertaken housekeeping in New York thought she had a good working knowledge of the language, but soon discovered her mistake.

One day she called a carpenter and planned with him to have some work done about the house in the way of putting up shelves, etc., and she went over the ground with him as carefully as possible to get from him an estimate of what it would cost.

After the work was done the bill submitted was considerably in excess of the sum first named. The Frenchwoman endeavored to remonstrate, but only succeeded in making the following remarkable statement to him:

"You are more dear to me than when we were first engaged."—New York Sun.

#### Almonds.

The world's almond crop, exclusive of those raised in California and the west, comes from Italy, Sicily, Majorca, Spain, France, Portugal, Morocco and Algiers. The highly prized Jordan almonds come from Malaga, Spain, and not from the Jordan river, as many people suppose. The common almond is the most indigestible of all the nuts and contains very little nourishment. There are many ways, however, in which it is advantageously used as a desert or as a flavoring. One peculiarity about the almond tree is that its leaves contain prussic acid and are therefore poisonous, while the fruit may be eaten with impunity.

#### A Sure Thing Sport.

A well known politician on setting out for a day's sport with a friend pointed to a large spaniel which lay apparently asleep in the hall and bet his friend a guinea he could not attract the dog's attention.

The bet was readily accepted, and after the failure of a shrill whistle and a blank cartridge to cause the slightest movement the guinea was delivered up.

"That's my old dog Mahatma I had stuffed a few weeks ago," laughed the politician, "and that's the tenth guinea he's brought me."—London Tit-Bits.

#### Italian Bees.

Italian bees are more hardy than the native and more profitable. They are more energetic and will gather honey in partial droughts when natives will do nothing. They will gather honey from blossoms that natives will not touch. They are stronger on the wing, will fly more directly and swiftly and are not so irritable.

## BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac. dtt

## WANTS TO SURRENDER

Pat Crowe Is Seeking Terms from  
Omaha's Chief of Police.

## FAIR TRIAL ASKED.

Chief Donahue Says the Letter Is Genuine and His Terms Will Be Accepted—Letter from Crowe's Uncle on Same Subject.

Omaha, Oct. 14.—Chief of Police John J. Donahue, has received a letter from Pat Crowe, naming the terms on which he will surrender. The letter came in care of an Omaha newspaper and covers 15 pages of closely written manuscript. The post-mark is illegible, but the letter was mailed at 8 o'clock in the morning and reached this city at 8 in the evening of the same day, indicating that it had not traveled a long distance.

In the letter Crowe agrees to give himself up at once and stand trial for the kidnaping of Eddie Cudahy, provided he is not locked up until a jury shall adjudge him guilty. He says he is unable to furnish bond in excess of \$500 and demands that bail be fixed in that sum.

Chief Donahue, when asked his opinion of the genuineness of the letter, expressed himself as quite satisfied that it came from Crowe. Donahue has known Crowe for several years, is acquainted with his manner, handwriting and

PAT CROWE.

style of speech. The chief also received a letter from Crowe's uncle at Manchester, Ia., submitting similar terms for Crowe's surrender, which lead the police to believe they are dealing with the right man.

Chief Donahue says he will request the city and Mr. Cudahy to withdraw the rewards which have been offered for Crowe's arrest and conviction with the provision that Crowe surrender himself. He said that if Crowe gave himself up he would be given all the advantage the law provided and would be afforded time and ever facility for securing such witnesses as his attorneys deemed necessary.

He said that the fight that the attorneys of James Callahan, now held in connection with the kidnaping, were making for him did not anticipate the return of Crowe and that Callahan knew no more of Crowe's whereabouts than anybody else.

Her father, William John Duane, was secretary of the treasury in President Jackson's cabinet and was summarily relieved by the president for refusal to comply with his order to remove the public funds from the bank of the United States.

### California Town Burned.

San Jose, Cal., Oct. 14.—The entire business section of Los Gatos was wiped out by fire Sunday. Property worth from \$100,000 to \$150,000 was destroyed. A dozen or more business blocks containing several manufactories, a livery stable and a church and many dwellings were burned. The fire department was powerless to cope with the flames which were fanned by a strong breeze. A number of men were injured, but none seriously.

### Mormon President Buried.

The great popularity and clerical eminence of the deceased drew to the city Mormons from every corner of the state as well as many gentiles. The remains were buried at Brigham City.

### Wheat Crop of the World.

Washington, Oct. 14.—The department of agriculture announces that estimates of the world's wheat crop of 1901 so far made agree that the crop is larger than that of either of the two preceding years. The principal increase is credited to the United States, Canada and India, though various other countries are credited with larger crops than they had in 1900.

### Forest Fires in California.

## WHERE IS BOTHA?

Some of the London Papers Believe Him Hemmed, Others He Escaped.

New York, Oct. 14.—In explanation of the statements of some of the London dailies concerning the war in South Africa the London correspondent of The Tribune cables as follows:

The Standard thinks that the British troops have a good chance of capturing General Botha. Very little is known here in regard to the movements of the Boer commandant-general since the failure of his attempt on the Natal frontier. His wagons with an escort under Groblaar have been detached and sent east. Botha with main body marched in the same direction for some time only to find that his retreat was being cut off by one of the British columns which was apparently moving parallel with him. He then moved due north to within a few miles of Piet Retief, where he is believed to have halted in a difficult and perilous position. He cannot break back toward Zululand or the Natal frontier without throwing himself right into the arms of his pursuers. If he goes north he will touch Swaziland and will get into trouble with the warlike natives. He may possibly drift away toward the west and find a temporary refuge in the passes of the Fladsberg. On the whole, The Standard considers that the Transvaal army is in a tight corner. The Daily News on the other hand takes the view that General Botha has got clear away.

### RHODES MAY DIVULGE.

If Made to Show His Hand He Will Will Make Others Ashamed.

New York, Oct. 14.—The business associates of Cecil Rhodes make no secret of their belief in his correspondence with Schnadhorst in regard to that famous check for £5000 forms by no means the best card which the Cape premier has to play against his Liberal opponents, says The Tribune's London correspondent. They assert this sensation is as nothing compared with what will follow if Rhodes is forced to reply to the charges which are being made against him. It is hinted he is in position to disclose the financial relations between certain officials of Liberal organizations and Kruger. The Liberals, for their part believe that Rhodes endeavored to bribe Schnadhorst by offering to make him a present of a number of the shares in the Chartered Company of South Africa.

### Melted into Small Groups.

New York, Oct. 14.—Heavy rains have temporarily interfered with communication between the columns in the field, says a Dundee, Natal, dispatch to The Times. As was feared the Boer forces in trying to make good their escape have melted into small groups. Commandant General Botha and the main body of burghers, accompanied by three commandants, have reached Pongola forest, near Luneburg, Transvaal.

### Offered Manufactured Information.

New York, Oct. 14.—Mr. Markham, member of parliament, who came into such prominence of late, in a recent speech at Kimberley, made many statements of general interest, according to a London correspondent of The Tribune. He said General Buller's international detective had paid him a visit and offered to give him valuable information about the Transvaal's secret service. The detective added that if Markham wanted any information manufactured he can manufacture it as well as anybody, but the offer was rejected.

### Negotiations Fallen Through.

New York, Oct. 14.—A Constantinople correspondent of The World cables the following points of interest concerning the attempt to rescue Miss Stone: The first negotiations with the brigands who kidnaped Miss Stone, the American missionary, and are now holding her for \$110,000 ransom, have fallen through, owing to the attempt by the Bulgarian police to trap the outlaws. It is believed, however, that Miss Stone and her companion, Mrs. Talika, are being well treated.

### Miss Stone's Mother Ill.

New York, Oct. 14.—Word comes from Boston in a special to The World that Mrs. Stone, mother of Miss Helen M. Stone, is sinking under the strain of the anxiety concerning her daughter. Mrs. Stone is more than 80 years of age and has been in feeble health for years. Her condition now is such that her friends fear that she will die of the suspense. Every effort has been made to keep the details of the situation from her in order to save her from the shock of alternate hope and despondency as varying news and reports are spread about regarding Miss Stone's fate.

### A Solid Nugget.

New York, Oct. 14.—A solid nugget which weighs four pounds was brought over on the steamer La Bretagne which has just arrived here. It is in charge of P. A. Oster, who will represent the Society of Mines at the Victoria, B. C. Mineral exposition. The nugget was on exhibition at the Paris exposition. It is called "Jumbo" and was found at Boulders Creek, B. C., near Olive lake.

### Wireless Telegraphy Advancing.

London, Oct. 14.—A new advance in wireless telegraphy is recorded here. The Daily Telegraph says that Marconi has succeeded in transmitting messages through the air for nearly 350 miles, which is far greater than the maximum distance hitherto reported.
